December 3, 1991

Mr. Glenn Mellor
Sunshine Mining Company
P.O. Box 250
Eureka, Utah 84628

Dear Mr. Mellor:

Re: Notice of Intent to Revise Large Mining Operations, Sunshine Mining Company,
Burgin Project, M/049/009, Utah County, Utah

The Division received your Notice of Intent to Revise Large Mining Operations on November 6, 1991. This revision deals with the inclusion of the Zuma Pit Exploration Project, E/049/021, into the existing Burgin Project permit. Sunshine Mining Company also wishes to reassign a currently "unused" portion of the existing reclamation surety to this revision.

Due to a backlog of other permit reviews the Division will be unable to complete a review of your revision within the usual 30 day time period. We anticipate completing our review within the next 30-45 days.

We would like to perform an inspection of the Zuma site in the near future before the completion of our review. A member of the Minerals staff will be contacting you soon to arrange a date and time for the inspection.

Please accept our apology for this delay and any complications this may cause you. We appreciate your patience and ask that you contact me or Tony Gallegos if you have any questions or concerns in this regard.

Sincerely,

D. Wayne Hedberg
Minerals Permitting Supervisor
